

Centennial College Students Present

## Multidisciplinary Science for a Better Society

In Celebration of  
**National Engineering Month**

Thursday March 19, 2015

12 noon—7 pm,

Centennial College Student Events Centre  
Progress Campus

**Dr. Mark Ernsting , P. Eng.**

Senior Biomedical Engineer,  
Drug Delivery and Formulation,  
Ontario Institute for Cancer Research

*Engineering in Cancer Research:  
Our role in both Early Discovery and  
Translation to Clinic*

**Piotr Mierzejewski**

DB2 SQL Compiler Developer,  
IBM

*Smart homes and cities in the Era of  
IoT (Internet of Things)*

**Jason Gray**

Senior Manager, Mobile Systems &  
Solutions, Scotia Bank

*Mobile Systems & Solutions*

**And More!**

### Hosted By:

CIPS Student Chapter at Centennial, Biotechnology Student Society, Food Science Student Committee, Automation & Robotics Society, Mechanical Engineering of Centennial College, Energy Society, ACE Club for Personal Development

In Partnership with:

### Come celebrate engineering with us!

Engineers satisfy our most basic needs as well as our most-human drive to make imagination reality. This is a celebration of a multidisciplinary field, from Software Engineering, to Biotechnology, Robotics, Mechanical Engineering and Food Science, engineers come from all walks of life and all disciplines.

### What You Can Expect:

- ◆ Speakers delivering compelling talks on current research.
- ◆ Companies showcasing products and services.
- ◆ Recruiters representing different companies.
- ◆ Students presenting projects from various fields. Topics include Cancer, Software and IT Technologies, a Diabetes Checkup Camp, and the pneumatic car designed by Robotics students.
- ◆ Free food, giveaways and door prizes!
- ◆ Hands-on activities that include DNA isolation, fun IT games, and more!
